— Who We Are —

Founded in 1985, CCIG is a fiercely independent, full-service insurance brokerage specializing in commercial lines, private client, and employee benefits solutions. With a national presence and offices in Denver, CO, Austin, TX, and Phoenix, AZ, our team of more than 120 seasoned advisors, risk managers, and insurance professionals brings the deep industry experience needed to minimize your exposures and find the right coverage.

But for us, it goes beyond just insurance. We believe in building lasting relationships, one client at a time. Over the years, we've partnered with thousands of businesses, from publicly traded companies to local, family-held operations, working side-by-side with them to deliver comprehensive, thoughtful, and innovative risk management solutions that reduce their long-term cost of risk.

— Testimonials —

"Shifting to CCIG has underscored the potential of working with a boutique insurance team. Many of CCIG's team members came from big brokers because they wanted to deliver a better, more personalized client experience, and that's exactly what I've seen. They ask the right questions to understand your opportunities and risks and then work alongside you to create a risk management plan that sets the foundation for a strong future."

— Senior Vice President, Finance, Baceline Group

"One of the most impactful things about working with CCIG is that they have the expertise and solutions the mega brokers offer, but you get a personalized experience and a dedicated team. Instead of feeling like you're on an assembly line, the team takes the time to understand your specialized needs and then crafts a customized risk management plan. That tailored approach sets the CCIG team apart from any other broker I've worked with, and it makes a significant difference in how we approach risk management."

— Chief Real Estate Investment Officer, Denver Housing Authority

CCIG

Empowering Your Future with Tailored Risk Management Solutions

Independent expertise and data-driven strategy, working year-round to protect what you've built.

Managing Total Cost of Risk

Continuous Optimization is CCIG's five-pillar service model, spanning Service Excellence, Analytics, Safety Consulting, Claims Advocacy, and Managing Cost, all working in a continuous cycle around the client. Together, these pillars deliver end-to-end risk management through customized service plans, data-driven analytics, on-site safety programs, dedicated claims advocacy, and alternative risk financing strategies.

Risk Analytics & Workers' Compensation

CCIG's data-driven approach to risk analytics and workers' compensation helps clients control their total cost of risk through plan design optimization, E-Mod analysis, loss history audits, and premium impact forecasting. On the workers' comp side, CCIG's analytics team predicts claim trends, models the financial impact of losses, and recommends optimal deductible structures to help clients achieve premium savings of up to 40%.

Claims Advocacy

Our dedicated claims advocate team leverages strong carrier relationships and deep industry knowledge to drive the best outcomes for clients. We provide detailed claims reporting and frequency/severity trend analysis to help clients spot patterns and make informed risk decisions, and we conduct thorough coverage reviews after losses, negotiating with carriers to prioritize our clients' interests and secure optimal outcomes.

Lines of Coverage

General Liability | Property | Umbrella | E&O | D&O | EPLI | Auto | Cyber | Fleet | Workers' Compensation | Pollution | Contractors Liability | Builders Risk | Contract Bonds | Management Liability
